IMPRESSIVE SERVICE AT ST. PAUL'S CHURCH.

Rev. Wythe Leigh Kinsolving Preaches Great Sermon.

World at Crisis.

Victory of the nation was celebrated at St. Paul's church yesterday with a solemn and interesting service. The services consisted of a celebration of the holy communion, with thanksgiving for victory and prayers for the reconstruction and upbuilding of damaged and ruined European countries was offered to God by the minister in charge of St. Paul's church, Rev. Wythe L, Kinsolving. This service will be repeated at 10 o'clock Thursday morning.

TELEGRAPHERS NOW WAIT. ING WORD FROM M'ADOO.

General Meeting of Leaders to Decide to Be Held in Atlanta Wednesday

A total of 200 telegraph operators in Chattanoga and approximately 15,000 operators in the southeastern territory, in which this city is located, are ready to quit their jobs at 8 o'clock Thursday morning. Secretary McAdoo was notified on Nov. 3 of the action planned unless he should in-tervene, and, with the time set for the walk-out only about forty-four hours distant, no word has yet been received from him. The information is that the wage labor board at Washington before whom the case of the operators, which has been pending since the first of the year, was laid, submitted the matter to Secretary McAdoo after passing on it. The de-cision of the wage board has not been learned. It was stated Tuesday after-noon that provided the men receive no further instructions from the general chairmen's committee, they will quit work at the time set.

The proposition of the operators calls for a minimum wage of \$120 a month, based on actual working days in a month and double time for Sunday and holiday work. It is contended that this wage is being paid to other classes of employes. If Secretary McAdoo renders his decision in time and it is satisfactory to the general chairmen's committee, there will be no walk-out. A meeting is to be held Wednesday in Atlanta.

It is pointed out that other employed.

It is pointed out that other em-ployes have been granted an increase from \$40 to \$125 a month, with the ours reduced to eight for a working day, while the telegraph operators have only received an increase averaging from about \$7 to \$10 a month and no reduction in hours. It is also pointed out that common laborers are being paid from \$3 to \$4 a day, while the average pay of operators is \$75 a month. The salary of the yardmaster has been increased, which brings his total salary up to \$285 a month, with ten hours as a working day and time and a half for over-Then, too, it is said, the train dispatchers here have within the last day or so been granted an increase which brings their salary to about \$215 a month. The point is further made that the dispatcher is responsible for the movement of trains over a division of from 150 to 200 miles, while the yardmaster only has charge of the yards and is subject to the dis-

patcher's orders.

A walk-out of the operators would tie up the entire railway system, it is said. In other words, the movement of trains would be paralyzed.

Says a glass of hot water and phosphate prevents illness and keeps us fit.

Just as coal, when it burns, leaves behind a certain amount of incom-bustible material in the form of ashes, so the food and drink taken day after day leaves in the alimentary canal a certain amount of indigestible mate-rial, which if not completely elimin-

rial, which if not completely eliminated from the system each day, becomes food for the millions of bacteria which infest the bowels. From this mass of left-over waste, toxins and ptomain-like poisons are formed and sucked into the blood.

Men and women who can't get feeling right must begin to take inside baths. Before eating breakfast each morning drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash out of the thirty feet of bowels the previous day's accumulation of poisons and toxins and to keep the entire alimentary canal clean, pure and fresh.
